**BRAG book™ software is a WP plug-in
that allows your client to upload their own photos.**

Bb takes the burden off of you and your team. With Bb, you can focus on getting your client's website live while your client does the uploading.

Bb installs in 30 minutes or less. Integration tools are located in the dashboard, ready to download. Single and multiple physician configurations available.

Some Bb features include:
- Non-disruptive, works like a CDN
- Custom or template front-facing design
- SEO with custom options
- Compatible with Yoast & All-In-One SEO
- CCD trains your client and helps them upload their first 30 sets

When Suzanne Bruce & Associates Dermatology was building their new website with Red Spot Interactive, *they wanted a gallery they could upload themselves. BRAG book was their solution.*

In the first two days, *they uploaded 90 sets of before and afters* and were able to take the site live.
